**WORLDLINK LAUNCHES ITS IMOBILEMARKETS SERVICE TO JARVIS INVESTMENT MANAGEMENT'S CUSTOMER BASE**

**JARVIS BECOMES THE FIRST UK STOCK BROKER TO OFFER FREE REAL-TIME INFORMATION TO CUSTOMERS**

Worldlink, the owner of the UK and US patent for the transmission of profiled REAL-time data to mobile devices, is offering its **imobilemarkets** service to the clients of Jarvis Investment Management. Jarvis already provides Worldlink with a bespoke share dealing platform and the Company has now taken the decision to be the first UK broker to provide Free REAL-time information to their X-O and Sharedeal Active clients.

Jarvis is one of the UK's leading execution only stock broking companies and is delighted to be able to provide its customers with REAL-time information to ensure they are able to take advantage of the market volatility as and when it happens. To register for the **imobilemarkets FREE** service, which is automatically uploaded to both a customer's mobile and desktop, subscribers simply provide their name and create a password. The whole process is concluded in seconds and information such as a person's address is not required. The **imobilemarkets** service provides the following:

- Stock Markets – REAL-time share information so that customers can watch share prices change in REAL-time across the London Stock Exchange, Turquoise, AIM and Plus markets
- Foreign Exchange – REAL-time information on a wide range of currency pairings
- Commodities – pricing information on the most popular currencies traded
- Watchlists – where you can track the performance of your own share portfolio
- News – Stock market, economic and company information can be tracked in REAL-time so you can find out what news and how the news affects the stock market
- Charts – customers can track the historic performance of a share for example, over a five year period

Neil Riches, Managing Director and Founder of Worldlink commented: "We are delighted that Jarvis are making the **imobilemarkets** available to its customers for FREE. Most retail investors have to rely on information that is at least fifteen minutes delayed or pay huge sums to access REAL-time prices. It will allow Jarvis customers to be more informed which will enable them to make better investment decisions."

Nick Crabb, Client Services and Business Development Director of Jarvis Investment Management, commented: "We want our customers to be able to make investment decisions with the best information to hand. **imobilemarkets** gives them REAL-time pricing and a news service which allows them to keep up to date with events that affect share prices. We are the first UK broker to offer *free* REAL-time pricing to all its customers and hope that our peer group will do the same."

To register for **imobilemarkets**, visit one of the websites below or simply text 'APP<space>SDA' to '88833' from your mobile. <space> means enter a space between the words. For further information, please contact:
