## CHAIRMAN'S STATEMENT

- 22% increase in profit before tax
- 10% increase in year on year interest income
- 34% growth in dividend per share
- 22% increase in EPS

I am delighted to report that 2017 has been the most commercially successful year at Jarvis by some margin. Market conditions have remained favourable and we continue to expand both the commercial and retail arms of the business. Cash under administration has also grown. The share price, whilst volatile, is trading in a much higher range than this time last year.

Whilst the financial results are excellent, the dominant theme for Jarvis during 2017 has been regulatory changes which have taken place and are due in the coming year. Considerable time and resources have been, and continue to be, spent preparing and satisfying the requirements of MIFID II and GDPR. Whilst we accept that the legislation and regulations improve transparency, reduce market abuse, tax avoidance and generally strengthen the financial system, it should not be forgotten that these all come at a commercial cost for the firms' required to implement and enforce them. In the latter half of the year, and going forward, we will be incurring higher costs on software, data feeds and higher staff numbers to ensure policies are correctly implemented and monitored as a result of additional monitoring and reporting requirements. The introduction of MIFID II has also restricted the activities of investors in "complex instruments" such as ETFs and this has resulted in a significant number of clients especially within our commercial relationships requesting to be classified as professional in order to circumvent some of the trading restrictions.

These changes coincide with what I feel is a maturing of Jarvis as a company. Realistically we can no longer consider ourselves to be a small company. We now have considerable client assets in custody and under administration - though we are nowhere near the size of the largest brokers in the industry. Our market capitalisation is now over five times that of ten years ago. The challenge Jarvis has over the coming years is to embrace the change that growth requires without losing sight of the factors that have brought commercial success to the business in the first place. This challenge should not be underestimated, although I am confident we have the right staff and culture to succeed.

With that in mind I am urging investors to be realistic about near term results. As highlighted above our cost base has increased, so revenues will need to increase at a higher rate to maintain the growth of the past. That is not to say it cannot be done, especially if interest rates increase.

As a result of the growth in the business and the complexities of the Financial Services industry in general we will in future be extending the time we give ourselves to prepare and issue our financial annual statements. We will still be comparably prompt, but the current 6 weeks of the year end is now proving to be an unnecessarily short, self-imposed time frame for both Jarvis and its advisers. Future dates will be added to our investor website as usual.

**Andrew Grant**  
Chairman

## STRATEGIC REPORT

### Key developments and outlook

The existing business model continues to be successful. The cost base of the business is increasing, although the Board consider this to be an unavoidable consequence of both growth of the business, and the increased regulatory requirements of MIFID II and GDPR. There are no plans for any radical changes to the business model.

Market volumes in 2017 were higher than forecast, and volumes have remained high at the beginning of 2018. This is a key driver of the Group's profitability.

### Performance

#### Results and quarterly dividends (pence per share)

The consolidated profit for the year after income tax amounted to £3,553,330 (2016: £2,909,846). The company paid quarterly dividends per share of 23.5p during the year (2016: 17.5p). In line with dividend policy, the company has paid quarterly interim dividends throughout the year, and will continue to do so through 2018. No final dividend is proposed by the Board.

\* In 2015 in addition to total quarterly dividends of 16.5p per share and 10p special dividend was also paid.

Dividend growth reflects growth of profit after tax. The group aims to return at least 2/3rds of post-tax profit to shareholders. Management will retain profit to meet regulatory capital requirements and for sufficient reinvestment in the infrastructure of the firm to keep our client offering updated.

#### Profit before tax - £m

Growth in profitability has been driven through consistently increasing retail and institutional clients. This in turn improves trade volumes and cash under administration. Management have been able to do this without a like for like increase in the cost base. This has been partly achieved through investment in the operating platform and the Jarvis business model contains further scalability.

#### Trade Volumes - average daily volume

In 2017 the company recorded its highest daily average volume of trades, beating the previous record set in 2011. The period of 2010 to 2011 was notable for high volatility in prices, which in turn caused high trade volumes. General market conditions have never returned to these peak volumes. The new record set in 2017 has been driven primarily by the underlying growth of the business.

#### Cash under administration - annual average balance

Cash under administration is a function of client numbers and trade volume. Jarvis profitability is linked to cash under administration and management attempts to improve the balance by increasing client numbers.

#### Group structure

The principal trading subsidiary of the Group is Jarvis Investment Management Ltd. For regulatory reasons relating to administration and cost, Jarvis Securities plc is the AIM traded parent, holds the assets of the Group and is responsible for activities that fall outside the scope of regulated investment business. Jarvis Investment Management Ltd is a Member of The London Stock Exchange (LSE) and ISDX markets and is authorised and regulated by the Financial Conduct Authority (FCA). This status is essential for the trading activities of the Group and therefore compliance with the Rules of both the LSE and FCA is of paramount importance. The Group provides retail execution-only stockbroking, ISA and SIPP investment wrappers, savings schemes, and financial administration, settlement and custody services in all these areas to other stockbrokers and investment firms as well as individuals.

# JARVIS SECURITIES PLC

## Capitalisation and financing

Jarvis Securities plc had 11,182,750 Ordinary 1p shares in issue at the end of the year. 231,300 of these shares are held in treasury. These shares are admitted to trading on AIM. The business is highly cash generative and requires no debt or external financing. The Board balance the use of cash between maintaining sufficient reserves for regulatory requirements, the stated dividend policy, and investment in the infrastructure and future wellbeing of the business.

## EPS and P/E ratio

The principal measures used by investors to compare and rate publicly traded companies are the earnings per share (EPS) and the relative multiple to these earnings of the current share price (the price earnings or P/E ratio). Therefore the Board must have regard to these measures in order to maximise returns to investors. EPS is a result of dividing profit after tax by the average number of shares in issue throughout the period. The P/E ratio is the average share price during the year divided by EPS. The average share price during the year was 452p (2016: 317p). The P/E ratio is largely a product of the market price of the shares in the Company and hence is largely beyond the control of the Board. Certain actions can be taken where this is perceived by the Board to be out of synchronisation with comparable firms, such as the purchase of shares to hold in treasury or for cancellation as undertaken during the year.

These measures are important to investors and hence need to be given high regard. The Board will continue its efforts to maintain the P/E ratio to reflect its belief that Jarvis should have a premium rating to its competitors because of its yield and differentiated business model.

<b>2017 EPS:</b>	<b>32.40p</b>
2016 EPS:	26.45p
Rate of change:	+22.5%
<b>2017 P/E ratio:</b>	<b>13.96</b>
2016 P/E ratio:	11.99

## Principal risks and uncertainties

The following are the main risks to the Jarvis Securities plc group that are considered and monitored by the Board.

The Jarvis business model has several income streams. These are primarily commission income, interest income and account fee income. As such the business is not overly reliant on any one particular revenue stream. The Board are also committed to increasing the diversity of revenue streams as opportunities arise and without compromising the focus of the business through undue complexity.

## Regulatory risk

Changes in the regulatory environment resulting in additional costs or significant system or product amendments.

The firm operates in the "execution only" area of the financial services environment and as such is less exposed to some of the more complex and onerous areas of the regulatory environment. As part of ongoing risk management, the firm's risk appetite results in the avoidance of entry into areas that are complex from a regulatory perspective.

## Competitor risk

The firm operates in a competitive industry and has many larger competitors in the execution only retail and institutional market. Management monitor other firms' prices and product offerings to ensure that Jarvis remains competitively priced. Management also strives to provide high service levels to our clients in order to retain and encourage new clients to join us.

## Interest rate risk

The interest rate environment has a significant effect on the earnings of the company. An increase in interest rates would improve profitability as it would improve income earned on cash under administration. Conversely, further reductions in interest rates will reduce profitability.

## Economic risk

Market sentiment directly impacts on bargain numbers transacted and hence commission income for the company. Volumes are currently volatile month on month and are driven largely by investors risk appetite.

As stated above the firm has several income streams. The firm also has a low fixed cost base and most of the costs associated with trade volumes are marginal. Therefore in months where commission income is lower variable costs are also lower.

## Reputational risk

As the custodian of the wealth of our clients, any damage to the firm's reputation could result in the loss of clients and withdrawal of assets administered by Jarvis.

The firm adopts procedures that minimise the risk of fraudulent activity occurring either within the firm or by a third party.

# JARVIS SECURITIES PLC

---

## Operational risk

The main risk Jarvis is exposed to in its day to day activities is settlement risk, and all procedures within the firm are designed to mitigate this risk where possible. There may be instances where errors occur which leave the firm unintentionally exposed to market risk as a result of an error in its operating processes. Given the volume of transactions being processed these errors are extremely infrequent. When they do occur they are reviewed to see if further process enhancements can be made to minimise future errors. The Board recognise that new clients increase the scope for operational risk as new processes are sometimes required to match client requirements. A key element of the take on of any client is ensuring that such processes are operationally robust and do not exceed the Group's appetite for risk.

## Key personnel risk

Loss of key personnel is a threat to any skills-based business.

The firm attempts to set remuneration at competitive market levels and empower key employees so that they enjoy working at Jarvis. All employment contracts for key staff members include sufficient notice periods for replacements to be recruited and trained.

## Third party reliance risk

Any take over at the London Stock Exchange could result in major unanticipated changes for Jarvis and its commercial clients.

The Board monitor any proposed changes to the pricing structure of The London Stock Exchange and calculate the impact on our profitability in advance. In the event that there was an anticipated adverse impact we would have sufficient time to renegotiate contracts with commercial clients.

## Cybercrime

Loss of data, client assets or corporate assets through breaches of our IT infrastructure would result in financial loss to the firm and reputational damage.

The Board acknowledge the growing threat of cybercrime and maintain up to date industry standards in IT security. The firm's IT infrastructure is externally audited to the Payment Card Industry Data Security Standard, policies and procedures are in place to minimise the risk of critical data loss, employees must complete ongoing training in money laundering and fraud prevention and all computers are installed with malware protection.

## DIRECTORS' REPORT

The directors submit their report and audited financial statements for the year ended 31 December 2017.

### Statement of directors' responsibilities

The directors are responsible for preparing the Strategic Report and the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRSs') as adopted by the EU and applicable law.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the group and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company and group's transactions and disclose with reasonable accuracy at any time the financial position of the company and group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

They are further responsible for ensuring that the Strategic Report and the Report of the Directors and other information included in the Annual Report and Financial Statements is prepared in accordance with applicable law in the United Kingdom.

The maintenance and integrity of the Jarvis Securities plc web site is the responsibility of the directors; the work carried out by the auditors does not involve the consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred in the accounts since they were initially presented on the website.

Legislation in the United Kingdom governing the preparation and dissemination of the accounts and the other information included in annual reports may differ from legislation in other jurisdictions.

### Provision of information to auditors

So far as each of the directors is aware at the time the report is approved:

- there is no relevant audit information of which the company's auditors are unaware, and
- the directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

### Principal activities

The principal activities of the group members consolidated within these accounts are:

Jarvis Securities plc	Group holding company
Jarvis Investment Management Ltd	Member of The London Stock Exchange and ISDX markets Outsourced investment administration and Model B settlement services provider
Dudley Road Nominees Limited	Dormant nominee company
JIM Nominees Limited	Dormant nominee company
Galleon Nominees Limited	Dormant nominee company

### Auditor Independence

The directors have appointed an audit committee, one of whose roles is to ensure the independence of the group's auditors. The auditors are considered to be independent in accordance with the profession's ethical standards.

# JARVIS SECURITIES PLC

---

## **Audit Committee**

The Audit Committee of the Company comprises the Non-Executive Director and the Chairman of the Company and meets as required. Graeme McAusland is chairman of the Audit Committee. The Audit Committee is responsible for ensuring that the Group's financial performance is properly monitored, controlled and reported. It also meets the auditors and reviews reports from the auditors relating to the Financial Statements and internal control systems. The Audit Committee meets once a year with the auditors, without the general executive board members present.

## **Remuneration Committee**

The Remuneration Committee comprises the Non-Executive Director and the Chairman of the Company. The committee is responsible for reviewing and recommending the remuneration of directors and executives and remuneration policy as a whole within the Group.

## **Going concern basis**

The Group has considerable financial resources together with long term contracts with all its significant suppliers as well as a diversified income stream. The Group does not have any current borrowing or any anticipated borrowing requirements. As a consequence, the directors believe that the Group is well placed to manage its business risks successfully despite the current uncertain economic outlook. The directors review the liquidity of the Group in accordance with the FCA's prescribed liquidity framework prior to the approval of any dividends.

The directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

## **Future developments**

Future developments are discussed in the Chairman's statement.

## **Research and Developments**

During the year the group incurred website development costs of £67,598 (2016: 52,743), these amounts have been capitalised within the website class of intangible assets.

## **Purchase of own shares**

During the period 61,000 (2016: 94,300) Ordinary Shares were purchased by the company and held in treasury.

## **Financial Instruments**

Details of our financial risk mitigation policy are included in note 25.

## **Dividends**

Dividends are discussed in the Strategic Report.

## **Subsequent Events**

On 8<sup>th</sup> February 2018, a first quarterly dividend of 5 pence per share was declared, to be paid on 8<sup>th</sup> March 2018. The directors consider there are no other subsequent events.

## **Registered number**

The registered number of the Company is 5107012.

## **Directors**

The directors who served during the year were as follows:-

Andrew J Grant	Chairman and Chief Executive Officer
Nick J Crabb	Business Development and Client Services Director
Jolyon C Head	Finance Director
Graeme S McAusland	Non-Executive Director

## **Auditor**

A resolution to re-appoint Crowe Clark Whitehill LLP as auditor to the Company will be proposed at the annual general meeting.

BY ORDER OF THE BOARD

.....  
Andrew J Grant – Chief Executive Officer  
15<sup>th</sup> February 2018

# JARVIS SECURITIES PLC

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF JARVIS SECURITIES PLC

### Opinion

We have audited the financial statements of Jarvis Securities plc (the "Parent Company") and its subsidiaries (the "Group") for the year ended 31 December 2017, which comprise:

- the Group income statement for the year ended 31 December 2017;
- the Group statement of comprehensive income for the year ended 31 December 2017;
- the Group and parent company statements of financial position as at 31 December 2017;
- the Group and parent company statements of cash flows for the year then ended;
- the Group and parent company statements of changes in equity for the year then ended; and
- the notes to the financial statements 1 to 25, including a summary of significant accounting policies.

The financial reporting framework that has been applied in the preparation of the financial statements is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the Parent Company's affairs as at 31 December 2017 and of the Group's profit for the period then ended;
- the group financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union;
- the parent company financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union as applied in accordance with the provisions of the Companies Act 2006; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- The directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- The directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Group's or the parent company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

## Overview of our audit approach

### *Materiality*

In planning and performing our audit we applied the concept of materiality. An item is considered material if it could reasonably be expected to change the economic decisions of a user of the financial statements. We used the concept of materiality to both focus our testing and to evaluate the impact of misstatements identified.

Based on 8% of Group profit before tax, we determined overall materiality for the Group financial statements as a whole to be £310,000 (FY16 £275,000, based on 8% of Group profit before tax).

We use a different level of materiality ('performance materiality') to determine the extent of our testing for the audit of the financial statements. Performance materiality is set based on the audit materiality as adjusted for the judgements made as to the entity risk and our evaluation of the specific risk of each audit area having regard to the internal control environment.

Where considered appropriate performance materiality may be reduced to a lower level, such as, for related party transactions and directors' remuneration.

We agreed with the Audit Committee to report to it all identified errors in excess of £10,800 (2016: £10,800). Errors below that threshold would also be reported to it if, in our opinion as auditor, disclosure was required on qualitative grounds.

### *Overview of the scope of our audit*

The Group consists of a holding company and a trading subsidiary both of which are UK registered companies which operate from the same location in the UK. Statutory audits of both entities were carried out by the Group audit team. The Group audit team obtained an understanding of the internal control environment related to the financial reporting process and assessed the appropriateness and completeness of the consolidation adjustments.

# JARVIS SECURITIES PLC

---

## *Key Audit Matters*

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

This is not a complete list of all risks identified by our audit.

<i>Key audit matter</i>	<i>How the scope of our audit addressed the key audit matter</i>
<i>Income recognition</i>	
<p>Income recognition is a key audit matter as income is significantly material to the group and is an important determinant of the group's profitability.</p> <p>As part of our assessment of the completeness of the group's income streams we evaluated that there is a significant risk for a material misstatement to occur in the commission and fee income.</p>	<p><i>To address the significant risk identified we have independently recalculated commission income based on data extracted from the front office system and commission rates for the period.</i></p> <p><i>The integrity of the data extracted was verified by testing a sample of commission income back to client instructions including verifying the client was genuine.</i></p> <p><i>We tested the remaining commission and fee income by agreeing a sample back to supporting documentation.</i></p> <p><i>No significant exceptions were noted.</i></p>

Our audit procedures in relation to these matters were designed in the context of our audit opinion as a whole. They were not designed to enable us to express an opinion on these matters individually and we express no such opinion.

## Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

## Opinion on other matter prescribed by the Companies Act 2006

In our opinion based on the work undertaken in the course of our audit

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report and strategic report have been prepared in accordance with applicable legal requirements.

## Matters on which we are required to report by exception

In light of the knowledge and understanding of the group and the parent company and their environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

## Responsibilities of the directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on pages 5 to 6 the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

## **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditor's report.

## **Use of our report**

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

# JARVIS SECURITIES PLC

## NOTES TO THE FINANCIAL STATEMENTS

### 1. Basis of preparation

The company has adopted the requirements of International Financial Reporting Standards (IFRS) and IFRIC interpretations endorsed by the European Union (EU) and those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets at fair value through profit or loss.

These financial statements have been prepared in accordance with the accounting policies set out below, which have been consistently applied to all the years presented.

#### **New standards, not yet effective**

A number of new standards and amendments to standards and interpretations have been issued but are not yet effective and in some cases have not yet been adopted by the EU.

The Directors have assessed the application of IFRS 16, and note that once effective it will have a material impact on the results of the group. Application of this standard will result in changes in presentation of information within the Group's financial statements due to the capitalisation of the Group's operating leases noted in note 18.

The Directors have considered the impact of IFRS 9 and IFRS 15 on the financial statements. They consider there to be no material impact.

#### **Significant judgements and estimates**

The areas involving a high degree of judgement or complexity, or areas where the assumptions and estimates are significant to the consolidated financial statements, are disclosed in Note 20.

#### **Going concern**

The Group's business activities, together with the factors likely to affect its future development, performance and position are set out in the Strategic Report on pages 2 to 3. The financial position of the Group, its cash flows, liquidity position and borrowing facilities are described within these financial statements. In addition, note 25 of the financial statements includes the Group's objectives, policies and processes for managing its capital; its financial risk management objectives; details of its financial instruments and hedging activities; and its exposure to credit risk and liquidity risk.

The Group has considerable financial resources, long term contracts with all its significant suppliers and a diversified income stream. The Group does not have any current borrowing or any anticipated borrowing requirements. As a consequence, the directors believe that the Group is well placed to manage its business risks successfully despite the current uncertain economic outlook.

The directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

### 2. Summary of significant accounting policies

#### **(a) Revenue**

Income is recognised as earned in the following way:

Commission – we charge commission on a transaction basis. Commission rates are fixed according to account type. When a client instructs us to act as an agent on their behalf (for the purchase or sale of securities) our commission is recognised as income when the instruction is executed in the market. Our commission is deducted from the cash given to us by the client in order to settle the transaction on the client's behalf or from the proceeds of the sale in instance where a client sells securities.

Management fees – these are charged quarterly or bi-annually depending on account type. Fees are either fixed or are a percentage of the assets under administration. Fees are accrued up to the time they are charged using a day count and most recent asset level basis as appropriate.

Interest income - this is accrued on a day count basis up until deposits mature and the interest income is received. The deposits pay a fixed rate of interest. In accordance with FCA requirements, deposits are only placed with banks that have been approved by our compliance department.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

### (b) Basis of consolidation

Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date on which control ceases. The group financial statements consolidate the financial statements of Jarvis Securities plc, Jarvis Investment Management Limited, JIM Nominees Limited, Galleon Nominees Limited and Dudley Road Nominees Limited made up to 31 December 2017.

The Group uses the purchase method of accounting for the acquisition of subsidiaries. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The cost of acquisition over the fair value of the Group's share of identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the Group's share of the net assets of the subsidiary acquired, the difference is recognised in the income statement.

Intra-group sales and profits are eliminated on consolidation and all sales and profit figures relate to external transactions only. No income statement is presented for Jarvis Securities plc as provided by S408 of the Companies Act 2006.

### (c) Property, plant and equipment

All property, plant and equipment is shown at cost less subsequent depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the items. Depreciation is provided on cost in equal annual instalments over the lives of the assets at the following rates:

Leasehold improvements	-	33% on cost, or over the lease period if less than three years.
Office equipment	-	20% on cost
Land & Buildings	-	Buildings are depreciated at 2% on cost. Land is not depreciated.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the income statement. Impairment reviews of property, plant and equipment are undertaken if there are indications that the carrying values may not be recoverable or that the recoverable amounts may be less than the asset's carrying value.

### (d) Intangible assets

Intangible assets are carried at cost less accumulated amortisation. If acquired as part of a business combination the initial cost of the intangible asset is the fair value at the acquisition date. Amortisation is charged to administrative expenses within the income statement and provided on cost in equal annual instalments over the lives of the assets at the following rates:

Databases	-	4% on cost
Customer relationships	-	7% on cost
Software developments	-	20% on cost
Website	-	33% on cost

Impairment reviews of intangible assets are undertaken if there are indications that the carrying values may not be recoverable or that the recoverable amounts may be less than the asset's carrying value.

### (e) Goodwill

Goodwill represents the excess of the fair value of the consideration given over the aggregate fair values of the net identifiable assets of the acquired trade and assets at the date of acquisition. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Any negative goodwill arising is credited to the income statement in full immediately.

### (f) Deferred income tax

Deferred income tax is provided in full, using the liability method, on differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. The deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction, other than a business combination, that at the time of the transaction affects neither accounting or taxable profit or loss. Deferred income tax is determined using tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries except where the timing of the reversal of the timing difference is controlled by the Group and it is probable that the temporary differences will not reverse in the foreseeable future.

# JARVIS SECURITIES PLC

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

### **(g) Segmental reporting**

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. The directors regard the operations of the Group as a single segment.

### **(h) Pensions**

The group operates a defined contribution pension scheme. Contributions payable for the year are charged to the income statement.

### **(i) Trade receivables and payables**

Trading balances incurred in the course of executing client transactions are measured at initial recognition at fair value. In accordance with market practice, certain balances with clients, Stock Exchange member firms and other counterparties are included as trade receivables and payables. The net balance is disclosed where there is a legal right of set off.

### **(j) Operating leases**

Costs in respect of operating leases are charged on a straight line basis over the lease term in arriving at the profit before income tax.

### **(k) Investments**

#### **Investment held for trading**

Investments held for trading are stated at fair value. An investment is classified in this category if acquired principally for the purpose of selling in the short term. Assets in this category are classified as current and are considered to be level one assets in accordance with IFRS 13.

Purchases and sales of investments are recognised on the trade-date – the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value. Investments are derecognised when the rights to receive cash flows from the investments have expired or been transferred and the Group has transferred substantially all the risks and rewards of ownership. Realised and unrealised gains and losses arising from changes in fair value of investments held for trading are included in the income statement in the period in which they arise.

The fair value of quoted investments is based on current bid prices. If the market for an investment is not active, the Group establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, or discounted cash flow analysis refined to reflect the issuer's specific circumstances.

The Group assesses at each balance sheet date whether there is objective evidence that an investment is impaired. In the case of investments classified as available-for-sale, a decline in the fair value below its carrying value is considered in determining whether the security is impaired.

#### **Investments in subsidiaries**

Investments in subsidiaries are stated at cost less provision for any impairment in value.

### **(l) Foreign Exchange**

The group offers settlement of trades in various currencies, predominately Sterling, US dollars and Euros. The group does not hold any assets or liabilities other than in Sterling and converts client currency on matching terms to settlement of trades realising any currency gain or loss immediately in the income statement. Consequently the group has minimal foreign exchange risk.

### **(m) Share Capital**

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from proceeds, net of income tax. Where the company purchases its equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income tax), is deducted from equity attributable to the company's equity holders until the shares are cancelled, reissued or disposed of. Where such shares are subsequently sold or reissued, any consideration received, net of any directly incremental transaction costs and the related income tax effects, is included in equity attributable to the company's equity holders.

### **(n) Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

# JARVIS SECURITIES PLC

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

### (o) Current income tax

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting periods, that are unpaid at the balance sheet date. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate based on the taxable profit for the year.

### (p) Dividend distribution

Dividend distribution to the company's shareholders is recognised as a liability in the group's financial statements in the period in which interim dividends are paid to shareholders and final dividends are approved by the company's shareholders.

### (q) Share based payments

The Group applies the requirements of IFRS 2 Share-based Payment.

The Group issues equity-settled share-based payments to certain employees and other personnel. Equity-settled share-based payments are measured at fair value (excluding the effect of non-market-based vesting conditions) at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effects of non market-based vesting conditions.

The share option reserve represents the accumulated share option charge. The balance in the reserve has been transferred to retained earnings as all remaining options have been exercised during the year.

Fair value is measured by use of a Black-Scholes option pricing model. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

## 3. Group revenue

The revenue of the group during the year was made in the United Kingdom and the revenue of the group for the year derives from the same class of business as noted in the Strategic Report.

	2017	2016
	£	£
Gross interest earned from treasury deposits, cash at bank and overdrawn client accounts	3,808,064	3,458,611
Commissions	4,141,315	3,661,488
Fees	1,474,057	1,202,745
	<u>9,423,436</u>	<u>8,322,844</u>

## 4. Segmental information

All of the reported revenue and operational results for the period derive from the group's external customers and continuing financial services operations. All non-current assets are held within the United Kingdom.

The group is not reliant on any one customer and no customer accounts for more than 10% of the group's external revenues.

As the Group's sole business activity is the provision of stock broking services and all revenue is derived in the UK, management have not had occasion to define any factors to identify reportable segments.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

### 6. Auditors' remuneration

During the year the company obtained the following services from the company's auditors as detailed below:

	2017	2016
	£	£
Fees payable to the company's auditors for the audit of the company's annual financial statements	22,000	21,500
<i>Fees payable to the company's auditors and its associates for other services:</i>		
The audit of the company's subsidiaries, pursuant to legislation	9,500	12,300
Total audit fees	<u>31,500</u>	<u>33,800</u>
Taxation Compliance	4,500	4,375
Other taxation advisory services not relating to compliance	5,220	-
	<u>41,220</u>	<u>38,175</u>

The audit costs of the subsidiaries were invoiced to and met by Jarvis Securities plc.

### 7. Income and deferred tax charges - group

	2017	2016
	£	£
Based on the adjusted results for the year:		
UK corporation tax	845,095	730,695
Adjustments in respect of prior years	(4,544)	393
Total current income tax	<u>840,551</u>	<u>731,088</u>
<i>Deferred income tax:</i>		
Origination and reversal of timing differences	6,561	(2,063)
Adjustment in respect of prior years	20,056	(863)
Total deferred tax (credit) / charge	<u>26,617</u>	<u>(2,926)</u>
	<u>867,168</u>	<u>728,162</u>

The income tax assessed for the year is more than the standard rate of corporation tax in the UK (19.25%). The differences are explained below:

Profit before income tax	4,420,498	3,638,008
Profit before income tax multiplied by the standard rate of corporation tax in the UK of 19.25% (2016 – 20%)	850,794	727,602
<i>Effects of:</i>		
Expenses not deductible for tax purposes	572	-
Adjustments to tax charge in respect of previous years	15,512	(471)
Exercise of options	-	641
Ineligible depreciation	375	390
Adjust deferred tax rate to average rate of 19.25%	(85)	-
Current income tax charge for the years	<u>867,168</u>	<u>728,162</u>

#### *Movement in (assets) / provision – group and company:*

Provision at start of year	6,312	9,238
Deferred income tax (creditor) / charged in the income statement in the year	26,617	(2,926)
(Asset) / Provision at end of year	<u>32,929</u>	<u>6,312</u>

#### *The deferred tax balances arise from taxable temporary differences in respect of the following:*

Deferred tax (asset) / liability brought forward	(12,398)
Prior year	12,398
(Asset) at end of year	<u>-</u>
	<b>Share Based Payments</b>
	<b>Tangible Assets</b>
Deferred tax liability brought forward	18,710
Current year	6,561
Prior year	7,658
Liability at end of year	<u>32,929</u>

At 31 December 2016	342,872	39,383	11,281	68,327	43,558	162,549

Goodwill represents the difference between the consideration paid and the fair value of assets acquired on the acquisition of a business in 2003. In accordance with the transitional provisions in IFRS 1 the group elected not to apply IFRS 3 retrospectively to past business combinations. Therefore the goodwill balance represents an acquired customer base, that continues to trade with group to this day and, more fundamentally, systems, processes and a registration that dramatically reduced the group's dealing costs. These systems and the registration contributed significantly to turning the group into the low cost effective provider of execution only stockbroking solutions that it is today. The key assumptions used by the directors in their annual impairment review are that the company can benefit indefinitely from the reduced dealing costs and the company's current operational capacity remains unchanged. The recoverable amount of the goodwill has been assessed using the value in use method and there is significant headroom based on this calculation. There are no reasonable changes in assumptions that would cause the cash generating unit value to fall below its carrying amount.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

### 18. Operating lease commitments - group

At 31 December 2017 the group was committed to making the following payments in respect of operating leases which expire:

	Equipment		Land & buildings	
	2017	2016	2017	2016
	£	£	£	£
Not later than one year:	8,641	9,052	87,500	47,625
Later than one year and not later than five years:	34,564	13,579	350,000	-
After more than five years:	7,921	-	415,625	-

The equipment lease is for the use of postage processing and franking machines. The lease was terminated during the year and a new agreement lease entered by mutual agreement of both parties.

### Operating lease commitments - company

At 31 December 2017 the company was committed to making the following payments in respect of operating leases which expire:

	Land & buildings	
	2017	2016
	£	£
Not later than one year:	87,500	47,625
Later than one year and not later than five years:	350,000	-
After more than five years:	415,625	-

The company has a lease with Sion Properties Limited, a company controlled by A J Grant, for the rental of 78 Mount Ephraim, a self-contained office building. The lease has an annual rental of £87,500, being the market rate on an arm's length basis, and expires on 26 September 2027.

### 19. Financial Instruments

The Group's principal financial instruments comprise cash, short terms borrowings and various items such as trade receivables, trade payables etc. that arise directly from operations. The main purpose of these financial instruments is the funding of the group's trading activities. Cash and cash equivalents and trade and other receivables are categorised as loans and receivables, and trade and other payables are classified as financial liabilities. Other than investments held for trading all financial assets and liabilities are held at amortised cost and their carrying value approximates to their fair value.

The main financial asset of the Group is cash and cash equivalents which is denominated in Sterling and which is detailed in note 14. The Group operates a low risk investment policy and surplus funds are placed on deposit with at least A rated banks or equivalent at floating interest rates.

The group also holds investments in equities.

# JARVIS SECURITIES PLC

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

### 20. Critical accounting estimates and judgements

The Group makes estimates and assumptions concerning the future. These estimates and judgements are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year relate to goodwill, intangible assets, bad debts and the expense of employee options.

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in Note 2 (e). These calculations require the use of estimates. The assumptions and sensitivity relating to the impairment tests are detailed in note 10.

The Group considers at least annually whether there are indications that the carrying values of intangible assets may not be recoverable, or that the recoverable amounts may be less than the asset's carrying value, in which case an impairment review is performed. These calculations require the use of estimates. The Group also calculates the implied levels of variables used in the calculations at which impairment would occur.

### 21. Immediate and ultimate parent undertaking

The company's immediate and ultimate parent undertaking is Sion Securities Limited, a company registered in England and Wales. Sion Securities Limited is controlled by Mr A J Grant by virtue of his controlling interest.

### 22. Related party transactions

The company has a lease with Sion Properties Limited, a company controlled by a director of the company, for the rental of 78 Mount Ephraim, a self-contained office building. The lease has an annual rental of £87,500, being the market rate on an arm's length basis, and expires on 26 September 2027.

During the year Jarvis Investment Management Limited paid Jarvis Securities Plc £7,000 (2016: £7,000) for rental of a disaster recovery site.

Jarvis Securities plc owed Jarvis Investment Management Limited £1,098,660 (2016: £150,929) at year end.

During the year, Directors, key staff and other related parties by virtue of control carried out share dealing transactions in the normal course of business. Commissions for such transactions are charged at various discounted rates. The impact of these transactions does not materially or significantly affect the financial position or performance of the Company. At 31 December 2017, these same related parties had cash balances of £1,332,833 (2016: £1,413,834) and interest was earned during the year amounting to £8,395 (2016: £925). In addition to cash balances other equity assets of £40,589,819 (2016: £45,026,624) were held by JIM Nominees Ltd as custodian.

During the year Jarvis Securities Plc charged £3,564,550 to Jarvis Investment Management Limited for use of intellectual properties.

### 23. Capital commitments

As of 31 December 2017, the company had no capital commitments (2016: nil).

# JARVIS SECURITIES PLC

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

### 24. Fair value estimation

The fair value of financial instruments traded in active markets (such as trading and available for sale securities) is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the company is the current bid price. The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values.

### 25. Financial risk management objectives and policies

The directors consider that their main risk management objective is to monitor and mitigate the key risks to the Group, which are considered to be principally credit risk, compliance risk, liquidity risk and operational risk. Several high-level procedures are in place to enable all risks to be better controlled. These include detailed profit forecasts, cash flow forecasts, monthly management accounts and comparisons against forecast, regular meetings of the full Board of Directors, and more regular senior management meetings.

The group's main credit risk is exposure to the trading accounts of clients. This credit risk is controlled via the use of credit algorithms within the computer systems of the subsidiary. These credit limits prevent the processing of trades in excess of the available maximum permitted margin at 100% of the current portfolio value of a client.

A further credit risk exists in respect of trade receivables. The group's policy is to monitor trade and other receivables and avoid significant concentrations of credit risk. Aged receivables reports are reviewed regularly and significant items brought to the attention of senior management.

The compliance risk of the group is controlled through the use of robust policies, procedures, the segregation of tasks, internal reviews and systems controls. These processes are based upon the Rules and guidance notes of the Financial Conduct Authority and the London Stock Exchange and are overseen by the compliance officer together with the management team. In addition, regular compliance performance information is prepared, reviewed and distributed to management.

The group aims to fund its expansion plans mainly from existing cash balances without making use of bank loans or overdraft facilities. Financial risk is therefore mitigated by the maintenance of positive cash balances and by the regular review of the banks used by the Group. Other risks, including operational, reputational and legal risks are under constant review at senior management level by the executive directors and senior managers at their regular meetings, and by the full board at their regular meetings.

The Group derives a significant proportion of its revenue from interest earned on client cash deposits and does not have any borrowings. Hence, the directors do not consider the Group to be materially exposed to interest rate risk in terms of the usual consideration of financing costs, but do note that there is a risk to earnings. Given the current Bank of England base rate is at its lowest level since its foundation in 1694, and the business has remained profitable, this risk is not considered material in terms of a threat to the long term prospects of the Group.

The capital structure of the Group consists of issued share capital, reserves and retained earnings. Jarvis Investment Management Limited has an Internal Capital Adequacy Assessment Process ("ICAAP"), as required by the Financial Conduct Authority ("FCA") for establishing the amount of regulatory capital to be held by that company. The ICAAP gives consideration to both current and projected financial and capital positions. The ICAAP is updated throughout the year to take account of any significant changes to business plans and any unexpected issues that may occur. The ICAAP is discussed and approved at a board meeting of the subsidiary at least annually. Capital adequacy is monitored daily by management. Jarvis Investment Management Limited uses the simplified approach to Credit Risk and the standardised approach for Operational Risk to calculate Pillar 1 requirements. Jarvis Investment Management Limited observed the FCA's regulatory requirements throughout the period. Information disclosure under Pillar 3 of the Capital Requirements Directive is available from the Group's websites.

The directors do not consider that the Group is materially exposed to foreign exchange risk as the Group does not run open currency positions beyond the end of each working day.

# JARVIS SECURITIES PLC

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

As of 31 December 2017, trade receivables of £115,184 (2016: £398,765) were past due and were impaired and partially provided for. The amount of the provision was £84,995 as at 31 December 2017 (2016: £299,903). The individually impaired receivables relate to clients who are in a loan position and who do not have adequate stock to cover these positions. The amount of the impairment is determined by clients' perceived willingness and ability to pay the debt, legal judgements obtained in respect of, charges secured on properties and payment plans in place and being adhered to. Where debts are determined to be irrecoverable they are written off through the income and expenditure account. The group does not anticipate future write offs of uncollectable amounts will be significant as the group now imposes much more restrictive rules on clients who utilise extended settlement facilities.

## NOTICE AND ARRANGEMENTS FOR THE ANNUAL GENERAL MEETING

Notice is hereby given for the above meeting of the Company.

The meeting is to be held on **Thursday 22<sup>nd</sup> March 2018**. The Annual General Meeting will commence at **9:00 am**.

The Ordinary Resolutions to be considered are:

1. To approve the Directors' Report and Accounts for the year ended 31 December 2017.
2. To re-appoint Crowe Clark Whitehill LLP as auditors.

The Special Resolution to be considered is:

3. To renew the authority previously granted on 28 September 2005 allowing the Company to repurchase its own shares for Treasury or cancellation up to a maximum level of 10% of the Ordinary shares in issue at that date (being 11,150,250 Ordinary 1p shares).

The meeting is scheduled to be held at the Company's offices at:

78 Mount Ephraim  
Royal Tunbridge Wells  
Kent  
TN4 8BS

If you have any special requirements for access or facilities then please let us know in advance so that appropriate arrangements can be made. A location map and directions can be supplied upon request.

# JARVIS SECURITIES PLC

**NOTES**

1. A Member may appoint a proxy of his/her own choice. If such an appointment is made, delete the words 'the Chairman of the meeting' and insert the name of the person appointed proxy in the space provided.
2. If this form is returned without any indication as to how the person appointed proxy shall vote, he/she will exercise his/her discretion as to how he/she votes or whether he/she abstains from voting.
3. To be valid, this form must be completed and deposited at the offices of the Company not less than 48 hours before the time fixed for holding the meeting or adjourned meeting.
